Early Childhood Education and Care Entrance Questionnaire

Name:

Address:

What computer system do you have consistent access to?

(Note that tablets are not able to run the learning platforms used at Northern Lights College. Windows is the required operating system)

What semester are you starting in?

What semester do you want to finish in?

What kind of course load are you looking at?

Full Time (100% / 5 courses)

Full Time (60% / 3 courses)

Part Time Less than 3 courses

How many courses do you want to take in each of the following semesters?

Fall (Maximum of 5)

Winter (Maximum of 5)

Intersession (Maximum of 2)

Summer (Maximum of 2)

What is your end goal?

What is the most important need for young children?

Why?

Have you visited a group daycare, preschool, play group, multi-age child care centre, strong start centre, or kindergarten? If so, please state which.

Describe your experience and what stood out for you.

Why do parents access programs for young children?

Children's developing emotional and social skills means that they often engage in behaviors that put them in conflict with others (i.e. they may take someone's toy because they want to play with it and they are tired of waiting for a turn, or they may run in the classroom because they have a lot of energy).

How would you respond to children in these types of situations?

What do you hope to gain by working with children?

If you could give children one thing, what would it be?

Visiting Students Only:

Tell us about your guidance philosophy

Tell us about your experience working with Pedagogical Narrations (give an example of how you used it in practice or in school).

Briefly, tell us how you would use the BC Early Learning Framework in your practice.
