Program Name: Carpenter Apprenticeship Training
Credential/Certification: NLC will report the technical training outcome for this level to the ITA for credentialing purposes
Date Submitted: October 2019
Effective Date: September 2019

Program Contact: Stephen Janssen

Dean: Mark Heartt

Document Author: Stephen Janssen

Program Description: Carpenters build and repair a vast array of structures made of wood, wood-substitutes and other materials. Many work for construction companies, contractors and maintenance departments while others are self-employed. Carpenter is a nationally designated trade under the Interprovincial Red Seal program. Carpenters assemble and erect forms for concrete, wood and metal frame construction and use plans and instruments to prepare for excavating and shoring. On smaller projects, they direct concrete placement, and install exterior and interior finish materials such as siding, doors, windows and cabinets. Levels 1 - 3 reflect harmonized curriculum.

Admission Requirements:
Level 1
Registered Apprentice with the Industry Training Authority or proof of successful completion of related Foundation Trades Training program.

Level 2
Successful completion of Level 1 Apprenticeship Technical Training or successful challenge of the Industry Training Authority Level 1 Placement Exam
