Open Elective**	CHOOSE THREE			9

Total Credits

60

Note:** Students can seek advice on academic planning from the Program Chair. Ultimately, it is the responsibility of the student to register for courses and to ensure that they have the pre-requisite courses where necessary as found on the NLC website <https://www.nlc.bc.ca/Programs/All-Programs-Alphabetical> Not all courses are offered every year. To ensure availability of courses, we recommend that students consult NLC's Fall and Winter Academic timetables at <http://www.nlc.bc.ca/Programs/Academic-and-Vocational-Programs/University-Arts-and-Sciences-Timetables>. *Note:** The three additional electives can be chosen from a variety of disciplines at the 100 or 200 level. Northern Lights College students are encouraged to choose a Gender Studies course and a course that deals with Aboriginal peoples of Canada. Also note that Northern Lights College's **CHEM 170: Introduction to Forensic Chemistry** is relevant to the field of Criminology. **CHEM 170** articulates to SFU as unassigned 100-level Chemistry credits.

Suggested Classification of Courses for Associate Degrees and Certificates

Discipline/Course	Humanities	Science	Lab Science	Social Science
Anthropology				X
Archaeology				X
Art History	X			
Art (Fine or Visual)	X
