

Good day,

My name is Courtney McCullough, and I am running for the position of Support Staff Representative on the Board of Governors. For the past year and a half, I have worked in various roles at Northern Lights College, including Campus Services, Regional Reception, and Scheduling. This experience has enabled me to propose, collaborate, and implement new processes for the college. Additionally, I am an active member of the JOH&S committee and serve as a First Aid Responder on the Dawson Creek campus.

As part of a department that has undergone significant changes, I understand the passion and professionalism that staff bring to NLC. I also recognize our staff's tremendous efforts to thrive through adversity. I would welcome the opportunity to share your perspectives and ideas to help ensure we continue to enhance our impact as a diverse, collaborative, innovative, and engaged institution.

I am committed to advocating for and driving positive change within our institution. Support Staff possess a unique and vital perspective on the college's operations, and it would be a privilege to represent your interests to the Board of Governors.

Thank you for considering my candidacy.

Best regards,
Courtney McCullough
