

I am honoured to be nominated to run for the support seat on the Northern Lights College Board of Governors.

I believe in the importance of collaboration and open dialogue. If I am elected to the Board of Governors, I will support ideas that improve the student experience at NLC. I will also back programming decisions that serve the Peace Region and beyond.

I began my journey at Northern Lights College (NLC) in 2017. During this time, I had opportunities for professional growth, and today, I am now working as the Director of Marketing and Communications. In the early days of my career here at NLC, I was on the College's Education Council (EdCo) for two terms. This experience provided me a behind-the-scenes look around the work related to programming and policies impacting students. It also provided me the experience of sitting on an internal governance committee that considers implementation and changes to standards, planning, and operations policies.

Working the communications and marketing department at NLC, I wrote profiles for students and faculty and took photos at various events around the College, which allowed me to see the transformative power of education in people's lives. Every story and photo highlighted my pride in what we do at Northern Lights College. Seeing the smiling faces of our graduates with their families during convocation serves as a powerful reminder of the hard work that the College community puts into providing an exceptional educational experience here in Northeast British Columbia.

I look forward to the opportunity to continue serving the College as a member of the Board.
