

Candidate's Statement

I'm Nicolas Mendoza, a second-year international student under the Post-Degree Diploma in Information Technology program. I have had the privilege to serve the students under the GuardMe Student Support Ambassadorship program, as well as being part of the Student Council after being elected the Student Council President in the May 2026 by-election. I have been a regular student and have had the chance to talk to a lot of them and hear out their concerns and inquiries throughout my stay at Northern Lights College. I have also exposed myself to how we can serve students through my time as a GuardMe Student Ambassador, and as the FSJ Student Council President. I'm looking to provide as much help as I can and provide the insight that I have gathered from the student body as part of the College Board/Education Council. I believe I can be of service to the students and the college as a whole, with the experience I have at the college and my professional background.
