

2026-2027 FSJ Student Council Nominees

Nominees for President:

Davies, Talitha

Nomination biography for Student Council Talitha Davies, current Indigenous Liaison of Student Council and Vice Chair of the NLCSA. Last September I received confirmation that I made Student Council by acclimation, the following November I was voted in for Vice Chair on the NLCSA. I have served this last year as the Indigenous Liaison, it has taught me so much about Orientations, meetings, working with others, and serving the students of NLC. As of today (September 9th 2026) I have not missed a meeting, event, or important communication, with the same level of commitment I believe that the events will continue to satisfy all the students new interests and curiosities about traditions / activities. After many different events over the last year, some were more successful than

others. I believe with the knowledge those events have brought me I would be a strong asset to the Student Council as the President. Volunteering for all of the past orientations from this last year I have been able to make connections with both the past and future students, leaving good impressions and creating a familiar face for students to find when they have questions or worries. Becoming a familiar face even across social media has been a wonderful experience of bringing myself out of being an introvert, and towards a great future alongside fellow students. I would love to be considered to serve for the Presidential position and continuing to serve our NLC students for my final year attending the NLC.

Thank you for reading my biography,
Sincerely Talitha Davies

Mendoza, Nicolas

Yo! My name's Nic Mendoza, just one of your ordinary Filipino International Student here at Northern Lights College. Currently taking up Post-Degree Diploma in Information Technology. Jack of all trades but master of none (it's the ADHD, sorry). You'll see me around just being useful and not get in anyone's way. Same with my previous biography, I'm not being flashy or marketing myself, it's just me being who I am and trying to be honest because that's more of what we need here in Northern Lights College.

I have been here for almost 2 years, I only want to help in any way I can for students. I'll be honest and tell you that if you don't believe in what I can do, I'll give way to a leader that can serve our students, but if you give me a chance I'll be the same but with better access to resources and help students better and hear out what students want from our student council and our school. I'm not the best, but one thing I can promise is that I try really hard and be as fair as I can be for students.

Nominees for Treasurer:

Attri, Kunal

My name is Kunal Attri, and I am currently enrolled at Northern Lights College, Fort St. John, BC, in the Business Management Certificate program, having previously completed my Associate of Science degree at NLC. I am running for the positions of Treasurer and Secretary because I would like to give back to the college and the community that I have been a part of for several years.

In my current role as a Shift Manager at a casino, I have gained experience working with finances, handling transactions, managing operations, maintaining accurate records, and making responsible decisions. I believe these experiences would allow me to contribute effectively as Treasurer and help ensure that student council resources are

managed responsibly.

I am also interested in the Secretary position because my work experience has required me to stay organized, communicate effectively, maintain documentation, and coordinate with different teams. I understand the importance of keeping accurate records, following up on responsibilities, and making sure information is communicated clearly and efficiently.

Having been part of the Fort St. John community and Northern Lights College for several years, I would like to use my experience to contribute positively to the student community. I am returning to NLC to continue building my education and career, and I would be proud to use this opportunity to support students, contribute to student council activities, and help make sure student voices are heard.
