PURPOSE

To provide remuneration in the form of a nominal stipend for elected student members of Education Council for their participation in the activities of Education Council.

SCOPE

This policy applies to students who are elected to Education Council.

DEFINITIONS

Education Council: The governing body at the College that is responsible for educational quality, curriculum development, reconciliation education, and educational policies and procedures, as legislated by the College and Institute Act.

Governance Committee: An Education Council committee that is responsible for reviewing and suggesting revisions regarding governance related policies and procedures.

Student Representative: A Northern Lights College student elected to Education Council by the students of the College.

Attendance: In-person or virtual attendance at Education Council meetings or, if semester schedule precludes, active attendance and participation in Education Council committees.

Stipend: a nominal payment provided to Student Representatives for their attendance at Education Council meetings. The amount is specified in the Procedures.

POLICY STATEMENTS or PRINCIPLES

The College Board and Education Council recognize the value of student membership on the Education Council. In recognition of that value, all students elected to the Education Council will receive a stipend

for the month in which they attend an Education Council meeting, to a maximum of ten (10) meetings per year. In the event that semester course attendance conflicts with meeting dates and times, the Council encourages student members to participate in Education Council functions such as committees, special meetings, or executive positions. These meetings do not qualify for additional remuneration but provide a way for students to participate in the process for which they have been elected and will qualify as participation in the Education Council meeting for that missed month, up to a maximum of two instances per elected term. The value of the stipend will be reviewed regularly by the Governance Committee and revisions recommended to Education Council.
