

Student health & wellness

Please browse the following health and wellness information and resources.

Northern Lights
College

Your physical and mental health is very important and will help you achieve your academic and career goals. Northern Lights College is committed to supporting the health and well-being of its students, and creating a healthy and safe, and learning environment.

The keep.meSAFE Mental Wellness Student Support Program provides all Northern Lights College students access to a large, diverse network of professional counsellors. Here, a student's unique circumstances can be matched with a counsellor who understands these experiences, in the preferred language and culture of the student.

Attending college can be an amazing time of new experiences and a great opportunity to explore new ideas. Dealing with feelings of anxiety and stress are some of the top reasons, but students may also seek support for reasons such as:

- Procrastination and building time management skills
- Anxiety about a public speaking assignment
- Nutrition concerns
- Worries about upcoming exams or disappointment with academic performance
- Stress due to financial challenges
- Concern about post-graduation plans
- Loneliness or homesickness
- Difficulty adjusting to life in another country
- Suicidal ideation
- Tensions with family members, friends, or roommate(s)

Help with quitting smoking

Did you know that it takes more than willpower to quit smoking? It takes skills and support, as well as your own motivation to quit. The new **Quit4Life (Q4L)** handbook can help you to quit smoking... for life.

Quit smoking in your own way, in your own time. **QuitNow** helps you make the plan that's right for you, and provides the support you need to see it through.

There are many reasons why you may want to quit smoking. You may worry about your

health, you may have concerns about how second-hand smoke is harming those around you, or

you may feel that your tobacco use is costing more and more. Whatever your reason, it is always a good time to quit. healthlinkbc.ca/healthfeatures/smoking-cessation.html

Emotional wellness

Struggling with anxiety? Feel you're missing out? There are things you can do to stop anxiety and fear from controlling your life.

MindShift is an app designed to help teens and young adults cope with anxiety. It can help you change how you think about anxiety. Rather than trying to avoid anxiety, you can make an important shift and face it.

Take charge of your mental health

If you're worried about yourself, you may not know what to do next.

Here, you'll take charge of your mental health and support your own journey to wellness.
